Introduction

The Catechesis of the Good Shepherd is a Christian formation process for children between the ages of 3 and 12 years. The central aim of this faith formation program is to enable the child to experience and form an authentic relationship with God.

The Catechesis is grounded in scripture and the liturgy of the church, then framed by Montessori principles of education. This allows children to hear the Gospels through the use of sensorially rich materials. The children are free to work with these materials that represent essential proclamations of the Christian message.

The adult's task is to prepare the sacred space for the children called the Atrium, so that they can respond to this relationship, first proclaimed to them through Jesus the Good Shepherd.

The Atrium is a place of community and worship rather than a place of academic study. It is a place to be with and enjoy God, listen to the Word and to pray. It is designed to reflect the beauty of creation and God's abiding love.

The vision for this faith formation began in 1954 with Dr. Sofia Cavalletti, a Hebrew and scripture scholar and member of the Vatican Commission for Jewish Christian relations and her colleague, Professor Gianna Gobbi, a Montessori Educator. Dr. Cavalletti began her work of the Catechesis of the Good Shepherd with young children in Rome, Italy. She found that in working with children in this way, whatever their culture, they have vital religious needs and they respond in similar ways to the most essential elements of the Christian message.

Children desire to be near to God but need the sensitive guidance of the adult as well as the inner guidance of the Holy Spirit to nurture this relationship.

Today, the Catechesis of the Good Shepherd can be found in several Christian traditions throughout the world.

**“If we want to help the child
draw nearer to God,
we should with
patience and courage
seek to go always closer
to the vital nucleus of things.**

This requires study and prayer.

**The children will be our
teachers if we know how to
observe them.”**
